## *CAT* STEELMANAGER

### Secure Stationery Web Service

With the Secure Stationery Web Service you can offload the creation of SteelManager stationery to another resource on your network.

The Web Service can produce Industry standard secure encrypted PDF files that can be automatically added to the SteelManager eDoc library.

### Key Features

- Offload processing of SteelManager stationery to a more powerful server.
- Speed up the creation of stationery.
- Optionally produce secure encrypted PDF files.
- Central administration.
- Single location for deployment of updates
- Options to integrate into mobile devices for production of stationery while on the road.
- Makes use of all the features of standard SteelManager stationery.
  - Multiple copies
  - Multiple destinations
  - Barcodes
- Integrates into SteelManager eDoc library

We are certified as a Microsoft Small Business specialist and have proven experience providing Microsoft products, services and solutions for your small business.

If you have any requirements for OpenEdge ABL development we have the experience. Advanced GUI for .NET, AppServer and other OpenEdge technology expertise available.
